Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-4, 9, and 18-21 are rejected under 35 U.S.C. 102(e) as being anticipated by Sheynblat et al. (6,677,894).

Regarding claims 1, 9, and 18-21, Sheynblat discloses a method and apparatus for providing location-based information via a computer network, comprising:

wireless connection devices for preparing for connection to a wireless terminal in a service region, and outputting information related to an exhibition for the wireless terminal through a network (see fig.2A, elements 20a, fig.8 and its description); and

an exhibition information server for processing the exhibition information service corresponding to the information related to the exhibition inputted from the network, wherein the connection is automatically initiated when wireless terminal enters the service region (see fig.2A, element 22, fig.8 and its description).

Regarding claims 2-4, Sheynblat further discloses a wire communication processing unit for transmitting a signal from the wireless terminal to the exhibition information server through the network, and receiving data from the exhibition

information server through the network (see fig.2B, elements 106, 112, 116, fig.8 and its description); and

a wireless communication processing unit for receiving the signal from the wireless terminal, and transmitting the data through air according to a data transmission request signal output from the exhibition information server through the network and received in the wire communication processing unit (see fig.2B, elements 104b, 104a, 106, fig.8 and its description).

Allowable Subject Matter

3. Claims 5-8, 10-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CongVan Tran whose telephone number is 571-272-7871. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marsha Bank can be reached on 571-272-7876. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
